

Positive or Suspected Case Protocols

Fuchs Mizrachi School Guidelines After Suspected or Confirmed Positive COVID-19 Test

This chart can help guide quarantine decisions after a student or adult has been with diagnosed COVID-19. These guidelines are most recently updated and approved of by the Medical Advisory Committee as of: August 23rd, 2021. Should these guidelines change in any way, all community members will be notified promptly. Should you have questions, comments, or concerns, please direct them to Nurse Krissa at kdickens@fuchzmizrachi.org

I am a FMS student or faculty member who is sick, and being tested for COVID-19. What should I do while I wait for the results, and what should I do when I find out what the results are?

Stay Home until test results have been received.
(regardless of vaccination status)

I am negative.

You may return to school once you have been fever free for 24 hours and/or symptoms have subsided.

I am positive.

Regardless of vaccination status, quarantine is necessary. Individuals should quarantine for a minimum of 10 days. This 10 days begins 48 hours before symptom onset OR the date of testing (whichever falls first.) Individuals should self-monitor for symptoms for a total of 14 days, however, if no symptoms are presents on day 10, they may return to school.

I am a parent or sibling of a FMS student, I am sick and have been advised to be tested. Should the FMS student stay home while I am waiting for my results?

Is the FMS student *fully vaccinated*?

No

Yes

Please remain home until test results are received.

Does the FMS student have any symptoms?

Yes

No

Please remain home, and contact his/her primary care provider regarding whether or not testing is necessary.

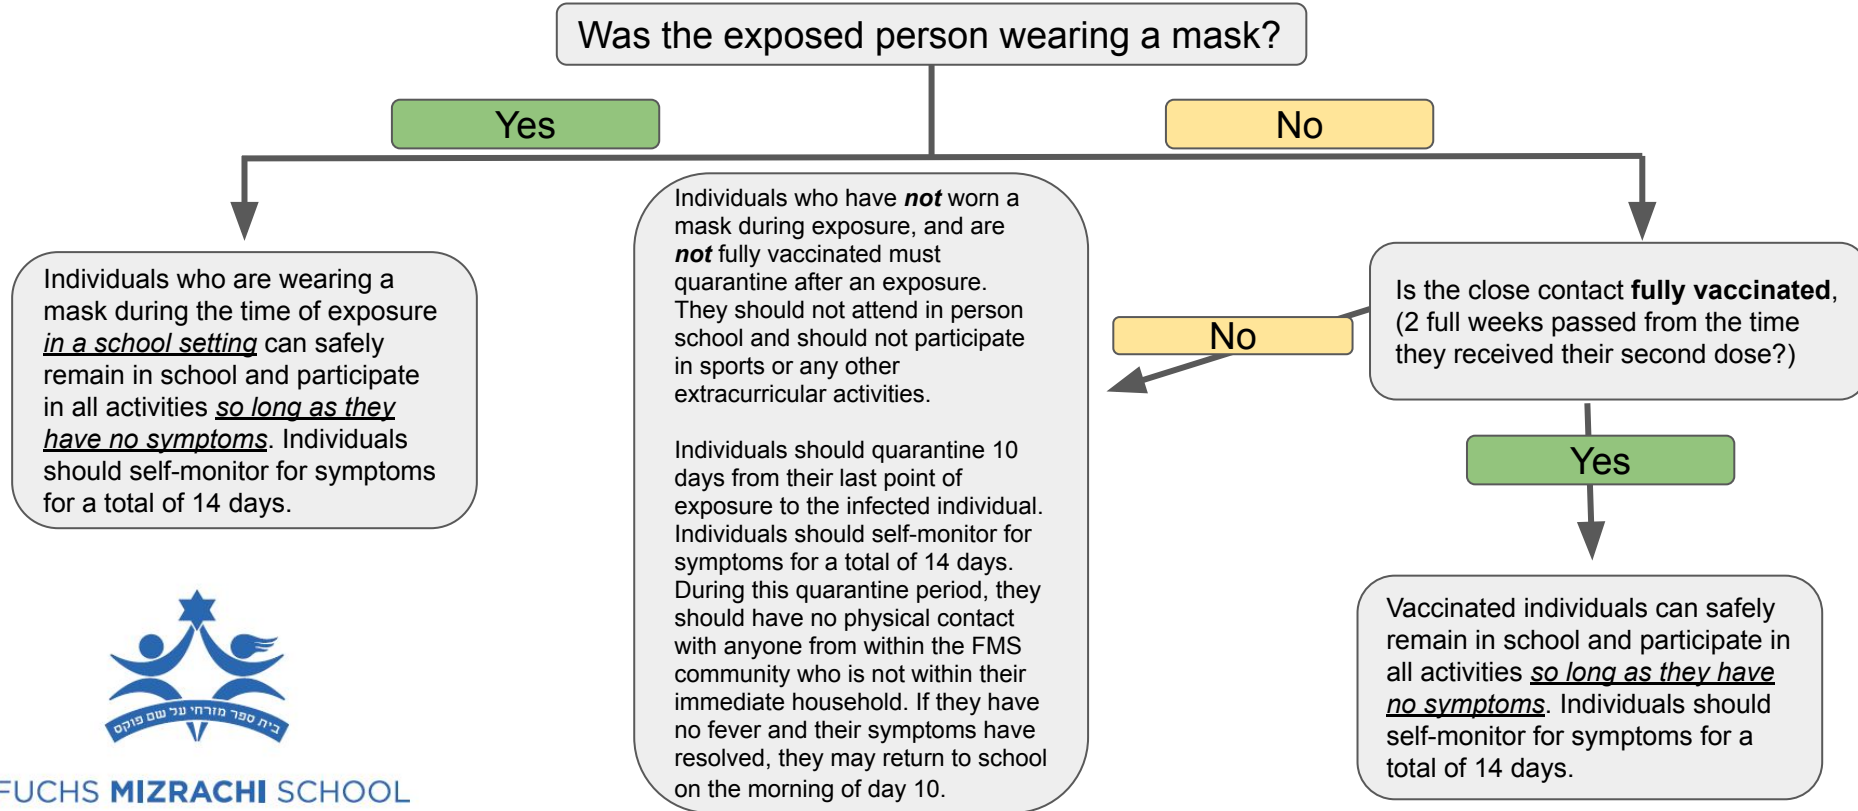

They may return to school while results are pending so long as they are symptom free, and may remain in school upon a positive results results of the family member in question so long as they themselves remain asymptotic.

Close Contact Protocols

Fuchs Mizrachi School Guidelines After Exposure in K-12 Classroom Settings

This chart can help guide quarantine decisions after a student or adult contract is exposed to someone with COVID-19 *in the classroom setting*. These guidelines are most recently updated and approved of by the Medical Advisory Committee as of: August 23rd, 2021. Should these guidelines change in any way, all community members will be notified promptly. Should you have questions, comments, or concerns, please direct them to Nurse Krissa at kdickens@fuchzmizrachi.org

Positive or Suspected Case: Questions to Expect

1. When did your symptoms begin?
2. Beginning 48 hours prior to the onset of symptoms, did you have *close contact* with any FMS student or staff member? (close contact is defined as: a)within 3-6 feet, b)without a mask, c)for a total of 15 minutes or more over a 24 hour period)
3. Are there any members of your household that also attend Fuchs Mizrachi School?
 - a. Are they fully vaccinated against COVID-19?
 - i. ***** To determine whether or not quarantine is also necessary for members of your immediate household, please refer to the FMS Quarantine Guidelines bubble graph.*****
